- Email (Discussing how we're going to proceed with the correspondents and deciding what's best for the projects future)
- Team Allocation
- Github

Meeting Summary

I (Ivan Kalashnikov) and Darius outline tasks that need to be achieved and allocated tasks to the group. We discussed platform, whether it will be a dedicated application via Android Studio or make a web application. Discussion in regard to making a bespoke server or whether we host everything on raptor.

Task to be Completed (For next meeting)
